

I listen to and benefit from XM Satellite Radio Instant Traffic & Weather daily to receive up-to-the-minute reports that I am unable to receive from my regular radio stations and TV. Satellite radio provides me a variety of and quality of listening that is not available in my area. Since obtaining my satellite radio, I would not do without it. I pay for the services of satellite radio and it should not be up to the National Association of Broadcasters to dictate to me what I am permitted to listen to. Respectfully, I urge the FCC to reject the NAB's petition 04-160. I support XM's ability to provide the type of programming that I demand and deserve.
Respectfully yours,

DONNA MORGAN
